

## Broadview Station Improving Streetcar and Traffic Operations Loop expansion and Track Renewal

**Timeline:** Mid-June to September 2023

\*Content / timeline accurate at time of printing

### What we are doing at Broadview Station and why

Starting mid-June, TTC will be enhancing the streetcar track infrastructure at Broadview Station - as recommended by the City of Toronto in its [August 2020 Broadview Avenue Traffic Safety Report](#). TTC will expand the station east into the existing Green P parking lot to enhance safety, transit and traffic operations and improve the current situation of streetcars queuing on Broadview Avenue.

### Background:

<https://www.toronto.ca/legdocs/mmis/2020/te/bgrd/backgroundfile-156175.pdf>

Currently, only one 505 Dundas streetcar safely can fit inside the station loop. After construction, two streetcars for both the 504 King and 505 Dundas will fit inside the station to significantly improve transit service, traffic operations and sight lines on Broadview Avenue.

*Existing conditions to be improved post-construction (left to right): 1) sidewalk blockage 2) streetcars queuing on Broadview Avenue*

### Coordinated projects on Broadview Avenue

The City of Toronto and TTC have also coordinated the following essential infrastructure improvements along Broadview Avenue to limit impacts to the local community. The work includes:

- Toronto Water Sewer Rehabilitation on Broadview Avenue - starting in May, managed by the City
- Streetcar track renewal on Broadview Avenue from Danforth Avenue to Gerrard Street East – starting in July, managed by the City in coordination with TTC

For further details on the City-led projects, please visit [toronto.ca/BroadviewConstruction](https://toronto.ca/BroadviewConstruction).

### Virtual Public Meeting

The City of Toronto will be hosting a virtual public meeting for several projects on Broadview Avenue this year. Discussions will include:

- Toronto Water Sewer Rehabilitation
- TTC work at Broadview Station including Erindale Avenue, Broadview Avenue, and Green P lot
- Streetcar track renewal on Broadview Avenue from Danforth Avenue to Gerrard Street East

Meeting details including date and time will be shared online at [toronto.ca/BroadviewConstruction](https://toronto.ca/BroadviewConstruction), [ttc.ca/BroadviewConstruction](https://ttc.ca/BroadviewConstruction), and in the City's pre-construction notice.

**See reverse for further details.**

# Pre-construction Notice

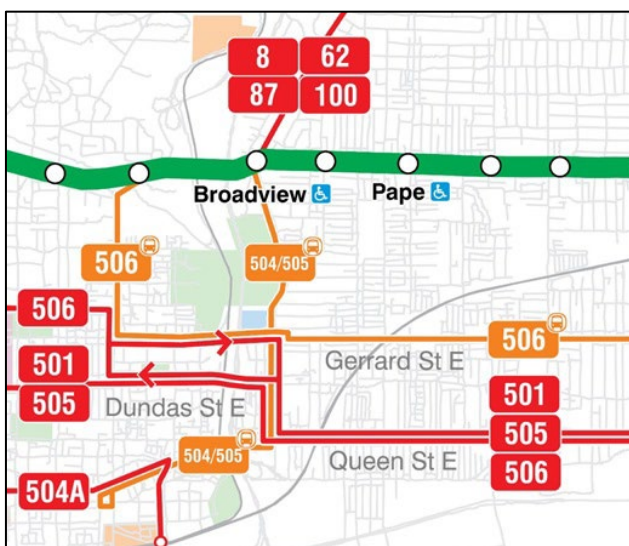

## What to expect during construction at Broadview Station

- To conduct rail replacement work safely and efficiently on Broadview Avenue and Erindale Avenue, a **full road closure** will be required on both roads for approximately 30 days between **mid-June and mid-July (timing to be confirmed)**. An update will be provided in the next construction notice.
- After the full road closure, work will take place inside the station with traffic lanes on Broadview Avenue and Erindale Avenue restored.
- Construction activities include excavation, concrete removal, rail removal; new concrete and rail installation.
- The majority of excavation and concrete removal will take place between 7 a.m. and 10 p.m. Other rail-related activities are required around-the-clock to ensure quality installation of new rail and concrete.
- Expected overnight activities include rail welding/grinding, placing new rail and concrete.

## TTC service – subject to change

- Changes to bus and streetcar service at Broadview Station are required throughout construction.
- Subway service will be maintained

### May 7 to June 17

- 504/304 King and 505 Dundas streetcars will be replaced with buses operating on Broadview Avenue to Broadview Station.
- Local routes maintained.

## Traffic and parking restrictions

- Broadview and Erindale avenues in the immediate vicinity of Broadview Station will be closed for 30 days to safely accommodate construction.
- **Owners of private driveways impacted by construction will be contacted.**
- The Green P lot at 35 Erindale Avenue will be temporarily closed during construction.

## Parking mitigation

As a result of the station expansion and impact to parking in the Green P parking lot, City Transportation staff are reviewing opportunities for both new temporary and new permanent on-street parking in the area.

*Thank you for your patience during this planned construction project to improve transit and safety.*

Michael Vieira, Senior Community Liaison, [michael.vieira@ttc.ca](mailto:michael.vieira@ttc.ca).

### Starting June 18 through summer

- There will be no TTC service on Broadview Avenue between Broadview Station and Gerrard Street due to construction.
- Connection between Line 2 and Broadview at Queen via diverted 72 Pape buses.
- 504 King streetcars routing to Distillery Loop.
- 505 Dundas streetcars routing to Bingham Loop.
